

PATENT

C. AMENDMENTS TO THE CLAIMS

1. (Currently amended) A method of tracking surplus reduction actions, said method comprising:
receiving a surplus reduction action from a user, wherein the user is an employee and wherein the surplus reduction action includes a surplus acknowledgment;
identifying a user identifier corresponding to the user;
and
storing the user identifier and data corresponding to the surplus reduction action in a nonvolatile storage area; and
providing benefits data to the employee in response to receiving the employee's surplus acknowledgement.
2. (Original) The method as described in claim 1 further comprising:
receiving a digital signature from the user;
authenticating the digital signature; and
storing the digital signature in the nonvolatile storage area.
3. (Cancelled)
4. (Currently amended) The method as described in claim 3 1 further comprising:
sending the employee a non-compete agreement;
receiving a digital signature from the employee
corresponding to the non-compete agreement; and
storing the employee's digital signature in the nonvolatile storage area.

PATENT

5. (Original) The method as described in claim 4 further comprising:
identifying one or more surplus employees that have
confidential knowledge of an organization; and
writing a non-compete indicator to a non-compete data
storage area corresponding to the identified surplus
employees, wherein the non-compete agreement is sent
to surplus employees in response to the
identification.
6. (Original) The method as described in claim 5 further comprising:
selecting the group of identified surplus employees;
analyzing digital signatures received from one or more of
the identified surplus employees;
determining based on the analysis which of the identified
surplus employees have not provided digital signatures
in response to non-compete agreements; and
sending a reminder notification to the determined group of
surplus employees.
7. (Cancelled)
8. (Currently amended) An information handling system
comprising:
one or more processors;
a memory accessible by the processors;
a nonvolatile storage area accessible by the processors;
an a tracking tool for tracking surplus reduction actions,
the tracking tool including:
means for receiving a surplus reduction action from a
user, wherein the user is an employee and wherein

PATENT

the surplus reduction action includes a surplus acknowledgment;
means for identifying a user identifier corresponding to the user; and
means for storing the user identifier and data corresponding to the surplus reduction action in the nonvolatile storage area; and
means for providing benefits data to the employee in response to receiving the employee's surplus acknowledgement.

9. (Original) The information handling system as described in claim 8 further comprising:
means for receiving a digital signature from the user;
means for authenticating the digital signature; and
means for storing the digital signature in the nonvolatile storage area.
10. (Cancelled)
11. (Currently amended) The information handling system as described in claim ~~10~~ 9 further comprising:
means for sending the employee a non-compete agreement;
means for receiving a digital signature from the employee corresponding to the non-compete agreement; and
means for storing the employee's digital signature in the nonvolatile storage area.
12. (Original) The information handling system as described in claim 11 further comprising:
means for identifying one or more surplus employees that have confidential knowledge of an organization; and

PATENT

means for writing a non-compete indicator to a non-compete data storage area corresponding to the identified surplus employees, wherein the non-compete agreement is sent to surplus employees in response to the identification.

13. (Original) The information handling system as described in claim 12 further comprising:

means for selecting the group of identified surplus employees;

means for analyzing digital signatures received from one or more of the identified surplus employees;

means for determining based on the analysis which of the identified surplus employees have not provided digital signatures in response to non-compete agreements; and

means for sending a reminder notification to the determined group of surplus employees.

14. (Currently amended) A computer program product stored in a computer operable media for tracking surplus reduction actions, said computer program product comprising:

means for receiving a surplus reduction action from a user, wherein the user is an employee and wherein the surplus reduction action includes a surplus acknowledgment;

means for identifying a user identifier corresponding to the user; and

means for storing the user identifier and data corresponding to the surplus reduction action in the nonvolatile storage area; and

PATENT

means for providing benefits data to the employee in response to receiving the employee's surplus acknowledgement.

15. (Original) The computer program product as described in claim 14 further comprising:
means for receiving a digital signature from the user;
means for authenticating the digital signature; and
means for storing the digital signature in the nonvolatile storage area.
16. (Cancelled)
17. (Currently amended) The computer program product as described in claim ~~16~~ 14 further comprising:
means for sending the employee a non-compete agreement;
means for receiving a digital signature from the employee corresponding to the non-compete agreement; and
means for storing the employee's digital signature in the nonvolatile storage area.
18. (Original) The computer program product as described in claim 17 further comprising:
means for identifying one or more surplus employees that have confidential knowledge of an organization; and
means for writing a non-compete indicator to a non-compete data storage area corresponding to the identified surplus employees, wherein the non-compete agreement is sent to surplus employees in response to the identification.
19. (Original) The computer program product as described in claim 18 further comprising:

PATENT

means for selecting the group of identified surplus employees;

means for analyzing digital signatures received from one or more of the identified surplus employees;

means for determining based on the analysis which of the identified surplus employees have not provided digital signatures in response to non-compete agreements; and

means for sending a reminder notification to the determined group of surplus employees.

20. (Cancelled)
